

EXHIBIT B

.VIRGIN REGISTRATION POLICY

The Registry Operator intends for it and its Affiliates to be the only registrants of domain names within the TLD. This will ensure that such domain names only are used for purposes authorized by Registry Operator. Only relatively few, specifically designated employees of Registry Operator will have authority to authorize the registration and/or use of any such domain names by our Affiliates and their business customers, whose access and use will be subject to protocols set by Registry Operator.

To the extent that The Company authorizes Affiliates to register and/or use any such domain names, a written license will ensure that Registry Operator maintains control over all use of the domain name(s). That license will include specific guidelines and restrictions relating to use of the domain name(s), including but not limited to specific prohibitions against:

- Illegal or fraudulent actions;
- Spam
- Phishing
- Pharming
- Willful distribution of malware
- Botnet command and control
- Distribution of child pornography
- Illegal Access to Other Computers or Networks

Use of any and all licensed TLD domains will be monitored, and compliance with the contractual restrictions and guidelines will be enforced. Violations of any restrictions, guidelines or other contractual conditions may result in termination of the registration and/or accompanying license.
